

HUNT'S MERCHANTS' MAGAZINE. A Weekly Newspaper,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 24.

SATURDAY, FEBRUARY 3, 1877.

NO. 606.

CONTENTS.

THE CHRONICLE. The Banks and the Comptroller. 97 Debt Statement. 102 Life Insurance Retirements and Prospects. 97 Debt Statement. 102 Latest Monetary and Commercial English News. 102 Commercial and Miscellaneous The Bankers' GAZETTE.

The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE is issued on Satur day morning, with the latest news up to midnight of Friday.

TERMS OF SUBSCRIPTION-PAYABLE IN ADVANCE:

nnless made by Drafts or Post-Office Money Orders.

London Office.

The London office of the Chronicle is at No. 5 Austin Friars, Old Broad Street, where subscriptions will be taken at the prices above named.

Advertisements.

Translent advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions, a liberal discount is made. No promise of continuous publication in the best place can be given, as all advertisers must have equal opportunities. Special Notices in Banking and Financial column 60 cents per line, each insertion.

WILLIAM B. DANA & CO., Publishers,
79 & 81 William Street, NEW YORK.
Post Office Box 4,592.

A neat file-cover is furnished at 50 cents; postage on the same is 17 cents. Volumes bound for subscribers at \$1 50.

For a complete set of the Commercial and Financial Chronicle—July, 1855, to date—or of Hunt's Merchants' Magazine, 1839 to 1871, inquire at the office.

The Business Department of the Chronicle is represented amore Financial Interests in New York City by Mr. Fred. W. Jones.

THE FINANCIAL REVIEW.

The FINANCIAL REVIEW, our annual book of sixty-four pages, will be ready February 6. To place this valuable collection of statistics within the means of all, the price has this year been reduced to \$1.25 per copy, and for regular subscribers of the CHRONICLE to the minimum rate of \$1. As a hand-book of practical information this work will be found of the utmost value to every intelligent merchant and banker, as well as to all those who are not engaged in active business, but take an interest in the general movements of Trade and Finance. The principal titles or subjects of the book are as follows:

titles or subjects of the book are as follows:

Retrospect of 1876; Mercantile Failures; United States National Bank Figures and Currency Movements; New York City Bank Returns; London Money Market and Bank Returns; United States Commerce and Trade Balance; Ton nage of Trunk Roads and Canals; New York City Exports, Imports, and Domestic Receipts; Prices of Merchandise, 1800, 1866 and 1873-77; The Money Market—Prices of Call Loans and Commercial Paper since 1870; Gold and Silver—Production, Exports, and Imports of Gold and Silver in the United States; Prices of Gold from 1862 to 1877; Foreign Exchange—Prices in New York, 1871-77; Investments and Speculation—Investments of Financial Corporations in New York City; Compound-Interest Table; Table showing the Rate Per Cent. Realized on Securities purchased at different prices; Stock Speculation; Prices of United States Bonds, 1860-77; Prices of State Securities, 1880-77; Railroad Statistics for the United States; Railroad Preferred Stocks; Railroad States; State Scottined Stocks; Railroad Stocks, 1872-77; United States Cotton Crop and Movement, 1875-76; European Cotton Movement (Eilison's Circular).

THE BANKS AND THE COMPTROLLER.

Every one who has studied with care the development of our banking system must have observed the anomaly, that while the great principle of publicity is fully applied to the 2,087 national banks, it has a very narrow and imperfect application to the 4,500 other banking institutions and firms comprised within the financial machinery of the United States. To remedy this defect, an important reform is proposed by Mr. Comptroller Knox. He has prepared a draft of the new legislation which is needful in each of the States, with a view to enable him to comply with the law of Congress, which requires him to publish reports of every part of our banking system.

The legislative measure suggested by the Comptroller is entitled, a bill "to provide for obtaining and publishing reports of banks, savings institutions, and trust companies, organized under State laws." Although only a fortnight has elapsed since this document was issued from Washington, replies have been received by the Comptroller from Ohio and Illinois, showing that his project is regarded as timely and necessary, and that the bill will probably be introduced into the Legislatures of these States at an early date. The adoption of so important a reform by all the States of the Union would place this hitherto neglected part of our financial statistics in advance of those of England, or of most of the other European nations. To show the importance of this measure, it is only needful to recapitulate its chief provisions.

It enacts, first, that every bank and savings institution organized under the laws of a State shall make a quarterly report of its condition to the Auditor or other proper officer of the State; secondly, that these reports shall all be uniform, both as to their contents and the time of publication; and thirdly, that the Auditor, or other officer to whom the reports are made, shall compile the statistics thus received, and shall transmit a tabular summary thereof to the State Legislature, at the beginning of each session.

Such, in substance, are the provisions of the bill, of which the necessity is too evident to need any elaborate argument. The chief reason urged against it is the interference with the freedom of the banking business, which it is alleged to authorize; but the bill contemplates no interference with the legitimate freedom of banking. The important principle of publicity has been too long established and recognized to be misunderstood at this late day. This principle is of vital importance to every sound system of banking, and so oft-refuted an objection to it is unworthy of serious attention.

H

Throughout the commercial world the axiom is now accepted that the fullest light of publicity should be shed upon all the movements of the banks. In England, France, Italy, Sweden, Germany and other European countries, the reports of the banking institutions have received of late years a rapid development, and they are now more full and complete, and are also more carefully watched by the mercantile and financial community than ever before.

In our own country we have long recognized the special reasons which exist for as full a report as possible of every movement of our banking system which admits of clear tabular statement. During the last twenty years various efforts have been made in Congress for this purpose. One of the most recent of these legislative movements is embodied in section 333 of the Revised Statutes. This law was passed Feb. 19, 1873, making it the duty of the Comptroller of the Currency to report every year to Congress, "under appropriate heads, the resources, liabilities, and condition of the banks, banking companies, and savings banks organized under the laws of the several States and Territories." One of the chief obstacles to this important work has been that in several of the States no uniform reports are required by law, so that great difficulty has attended the efforts of the Comptroller to compile any statistical tables which could be relied upon as full and accurate. Several of the most formidable of these impediments will be removed when the Comptroller's new law has been adopted by the various States. For several reasons, the progress of the requisite legislation in Illinois and Ohio, and the other States where it is under discussion, will be watched with interest. In the first place, if it should be promptly adopted in those States, the salutary example will, no doubt, be speedily followed elsewhere by other States.

Secondly, the rapidity of the progress made by this new movement will offer new evidence in confirmation or in disproof of the theory which is extensively held by financial men since the panic of 1873, that the pressure of common dangers and the progress of the country towards specie payments have combined to develop a new tendency to union among all the various classes of banks which make up our banking system. As a significant illustration of some of these movements and their attendant dangers, we give below the statement, just compiled by the Comptroller of the Currency, as to the rapid and unprecedented changes which are taking place in our banking system, under the laws of June 20, 1874, and January 14, 1875. The statistics are as follows:

December, 1875......
January, 1876...... 821,220 898,039 2,606,950 1,986,723 2,629,900 702,370 554,030 1,949,873 February, 1876 329 395 3,956,237 March, 1876 322,880 1,853,549 5,301,027 188,144 April, 1876..... 225.815 1,622,117 3,001,600 237,872 476,560 May, 1876.... 2,087,421 2,085,692 404,208 4,741,747 2,612,643 June, 1876 495,670 851,884 July, 1876..... 144,88) 2,831,816 1,202,831 158,056 August, 1876 4,032,953 1,137,630 284,624 September, 1876..... 1.015.510 2,380,168 1,726,085 839,564 October, 1876..... 1,198,780 2,201,606 1,351,609 959,024 November, 1875..... 789,895 1,900,862 432,600 624,716 December, 1876..... 1.069.893 870,975 January, 1877.... National bank notes surren-dered and retired.... 1,337,840 1,447,868 703,240 1,0:0,272 4,422,858

1875, TO JANUARY, 1877.

Nat. B'k Circulation

\$981,010

Deposited. \$1,284,079

\$764,472

\$967,969

Months.
November, 1875.....

January, 1877.

Mational bank notes surrendered and retired.

\$10,282,310 \$36,688,879 \$39,186,100 \$8,251,432 \$10,282,310 \$17,261,323 \$17,2

From this table it appears that since 14th January, 1875, the decrease of national bank notes has been \$32,928,772, and of greenbacks \$17,015,188, while there are greenbacks now on deposit in the Treasury amounting to \$18,158,746. It thus appears that there has been a total decrease in the circulation of \$68,102,706, in the period of two years, by the two laws above referred to.

LIFE INSURANCE RETIREMENTS AND PROSPECTS.

The condition of life insurance is so much in doubt, and the anxiety concerning it, revived during the past week by the attempted and as yet undecided transfer of the New Jersey Mutual to another company, is so great, that any discussion of the subject in the spirit of fairness and intelligence is timely. With the intent, not so much to gratify curiosity as to supply a piece of history which is suggestive respecting the sources of the present trouble and its widest possible spread, we make the following sketch of the retirements from business which have already taken place.

Of the eighteen life insurance companies now remaining in this State, five are older than the general insurance act of June 24, 1853; two of the five were organized under special charters, and the other three under the Constitution of 1846 and the earlier insurance of 1849. The first organization under the act of 1853 was that of the Equitable, in 1859, followed by two more in that year. Then there were three in 1860, two in 1862, one in 1863, three in 1864, two in 1865, five in 1866, two in 1867, eight in 1868, seven in 1869, two in 1870. There were also several organizations which were completed but were abandoned or merged in others before doing any real business, and the number of charters filed which came to nothing was considerable. The maximum number herein included is 43, and the aggregate count of all which ever had legal existence is probably larger by two or three, but the largest number in existence at one time was 41. Of the eighteen now surviving, one started in 1842, one in 1845, two in 1850, one in 1853, one in 1859, three in 1860, two in 1864, one in 1865, three in 1866, two in 1868, omitting the Provident, which started in 1875. Or, tabulating them for more convenient comparison:

Number started.	Number now surviving.	Number	surviving.	Number started.	Number now surviving.
1842 1	1	1860 3	3	186 5	2
1845 1	1	1862 2		1867 2	None
1850 2	2	1863 1		1868 8	3
1853 1		1864 3		1869 7	None
1859 3		1865 2		1870 2	None

For reasons we do not stop to discuss, life insurance received an extraordinary impulse by the war, astonishing to nobody more than to the men concerned in directing it. This impulse was first noticed particularly in 1863, and went on increasingly for eight or nine years, until the general swing of the paper era was exhausted and turned in the opposite direction, from which we have been waiting since 1873 to see it react. The mortality has been chiefly in the younger companies, for of the 32 organized after the war begun only one-fourth now remain, and of the 26 organized since the war ended only 6, and not all of these are sure of surviving the present trial. For the purpose of presenting a sketch of these retirements, we have prepared the following table, showing the companies going out of business in successive years, with their date of commencing, the amounts of assets, liabilities exclusive of stock, and insurance outstanding, reported at the close of the previous year, and the mode of retirement:

		. 18	70.	
	Ascets.	Liab'ties.		
Great Western ('65).	\$512,652	\$538,770	\$8,026,666	Receiver.

National N. Y. ('63).	760,034	747,317	7,426,474	Re-ics. in Am. Nat. of N H.
		18	74.	
Guardian ('59) 3	,976,976	3,974,822	29,359,709	Re-insured in Univer. al.
Gov't Security ('70).	296,652	224,699	2,777,468	Re-ins'd in N. America.
Empire State ('69)	170,275	68,486	485,087	Re-insured in Life Ass'n.
Asbury ('67)	327,594	848,135	3,763,033	Receiver.
		18	75.	
Merchants' ('70)	196 659	117,974	2,423,514	Receiv.; re-ins'd in Globe.
N'th America ('62) 5	,789,074	5,685,623	26,138,640	Re-insured in Universal.
World ('66)	344,2 8	321,964	1,777,222	Re-insured in N. J. Mut.
Commonwea'th ('68)	276,599	249,614	2,745,769	Rec.; re-ins. in N. J. Mut.
		18	76.	
Continental ('65) t	3,229,484	5,504,052	51,179,234	Receiver.
Security ('62)3		3,169,152	20,617,269	Receiver.

The capital stock of these companies varied from \$100,000 to \$200,000; adding that to the liabilities, only four in the list were unimpaired, by their own showing, namely: American Tontine, Empire Mutual, Empire State, North America. The receiverships in case of the Continental, the Eclectic, and the National of New York, were procured at the suit of stockholders; in other cases, the proceeding was instigated by the Insurance Department; most cases, however, were cases of "reinsurance," or amalgamation with other companies. In order to present to the eye the course of successive absorptions, we add the following covering the most notable cases:

Farmers' & Mech. | Empire Mut. | Continental. | Commonwealth. | N. J. Mut'l. | Nat. Capitol. | Vorld. | Craftemen's | Hope. | Widows' and Orphans' Benefit. | Mutual Protection. | Guardian. | Craftemen's | Hope. | Universa'. | Capitol. | Craftemen's | Hope. | Craftemen's | Craftemen's

The absorption of the Continental by the New Jersey Mutual differs from the other cases by being in piecemeal instead of in bulk, and by being dependent upon the consent of policy-holders separately; that of the New Jersey company itself is resisted by the State, but we have included both cases in order to follow out the process. The aggregate of nominal insurance represented in these transfers exceeds \$230,000,000, but of course much of this is counted several times. A characteristic of such transfers, very noticeable in amalgamations in England and shown also here, is that the retiring company is almost invariably taken by another which is at least no better than itself, so far as appearances indicate, and is often decidedly the weaker of the two. Thus, by carefully examining the above tables, the reader will see that nearly always the retiring company went to one younger and no larger than itself; the most singular instance of this was in 1872, when the Widows' and Orphans' Benefit, organized in 1864 under excellent auspices, was transferred to the Mutual Protection, four years younger, and the latter, after procuring special legislative permission to change its name to the Reserve Mutual, before the end of the year transferred itself to the Guardian. At first sight this seems anomalous, but there is a sound business reason in the fact that

the strongest companies decline to even entertain the proposition to weaken themselves by assuming the liabilities of others too weak to remain in the field; only one company organized prior to the end of the war has absorbed any other, and that one afterwards itself fell. On the other hand, of the twelve companies which have thus absorbed others, only three remain in existence.

As to the time of retirement, eleven companies went out of existence before 1873, against fourteen since. But, if the expression may be allowed, the crisis of 1873 began earlier than that year; its causes were at work at least two years earlier, and the wave of imaginary prosperity in general, upon which the issue of life insurance policies had been carried with unnatural speed, had already begun to return, although the fact was not discovered until the Jay Cooke failure, which revealed the situation and thereby started the panic. There was not a material fact altered between July 1 and October 1 of that year, except the tone of public feeling; but that change in feeling was just the one needful to put every form of financial organization to the test. Before, everybody believed in appearances, looked for prosperity, and doubted few things; after that simple change cf disposition, everybody refused to trust appearances, became expectant of failures, and questioned everything, striking here and there with the hammers of demand and suspicion, and listening for the sounds which tell of hollowness. Such a time inevitably discovers the rotten spots, and because such discovery is necessary, the compensation of its distressful work is that it does so discover them. The test was applied to life insurance in many ways. New business became steadily harder to get, un. der a pressure which trimmed expenditure on all sides; policies were presented in unprecedented amounts in exchange for "paid up" and lessened ones, or for sale, or were suffered to lapse; the trials of Business unfavorably affected the mortality experienced; the unavoidable expenditures rose, and the receipts diminished; and safe investments at the old rates became harder to find. The downward movement of the business during the last three years has been nearly as swift as its upward one once was.

The failures of the past year are peculiar in that, unlike those occurring before, they are in large institutions, are tainted with what the broadest charity can call by no other name than fraud, and attract the attention of the universal public who read the newspapers; thousands who scarcely knew that twelve companies had already gone since the panic, read of the Continental, Security and New Jersey Mutual, and can easily conclude that the whole fabric is decayed and crumbling. It is idle to suppose the public will not notice unfavorably the fact -now forbidding denial-that each of these companies figured out a surplus, a year ago, and swore to it falsely, and that in each case State supervision has been practically valueless; nevertheless, a sweeping conclusion is certain to be wrong. This article shows that only a single ante-war company has gone, and also shows the age of those remaining; and as time undeniably tests, it is certain that if the fault were in the system itself and not in the management the old companies would break instead of the younger ones. Life insurance is smooth sailing at first, with large receipts and small outgoes; then comes the mortality and the desire of members to withdraw, and the test begins, which an almost unprec edented financial crisis has now made unexpectedly soon and severe. Consequently, the companies which had not already become firmly rooted have given way. But

we speak advisedly in assuring the public that there is no cause for further and general alarm. That will only add an unnecessary strain, and if policy-holders apply it, they will be no wiser than a man would be who pounds his diamonds to see whether it is possible to break them.

COTTON SUPPLY AND CONSUMPTION.

After several years, in which the production of both cotton and cotton goods had so gained on the consumpsion of both as to cause a great and almost continuous fall in prices, averaging more than 1d. (English) or 2 cents (gold) per pound yearly, in cotton, and still more per pound of goods, the turn has come; consumption now again appears to outrun production of both the raw material and goods.

Indeed, the turn came more than a year ago, but was not recognized. The manufacturers of cotton fabrics and the dealers in cotton had got so used to the depression of accumulating surplus, and (like eels) to being skinned, that they really had a year's run of reducing stocks, of both cotton and cotton goods, before they saw it, or, seeing, could believe it. And that was the year in which our crop of 4,669,000 bales was going into consumption. In September last, we called attention to the fact that, during the previous two years, twentyseven months' production of our mills had gone into actual consumption or export, so that in August, 1876, there were smaller stocks of cotton goods held by producers, jobbers and retail houses, in the aggregate, than there were two years before, by at least three months' production. They had gone out of market, and were invisible to the trade. They had been distributed to actual consumers, and by export. We then indicated the increased and increasing demand for cotton fabrics, and the advancing prices, which are now clearly visible, by suggesting the evident impossibility of producing in 1876-7 so large a supply of goods as went into consumption alone, in either of the seasons 1874-5 or 1875-6.

The cotton growing and the cotton spinning interests are never far apart. They both of late have been on the rising grade, after a long descent which carried cotton lower in currency than its gold price in the average of three years before the war, and cotton goods two to four cents per pound lower than the lowest at the same period. Low prices always extend consumption. This is especially true of cotton, and is produced not alone through the increased demand for cotton goods, but also by enlarging its uses, permitting its substitution for other materials, as we showed, in our article of September 30th, had been done in the United States during the past season. It is with such facts, then, we have to deal in determining the sufficiency of our present cotton supply.

Nearly, or perhaps quite, three-fourths of the cotton crop having reached either the seaports or the mills, a pretty fair view of the remainder of the season and of ultimate results can now be had. It is best to leave all quantities which are yet unknown, and therefore subjects of estimate, to the opinion of each individual. The estimated quantities in the following are assumed only to make a formula, not as expressing our own opinion, which for this purpose it is not necessary to give. Every reader is expected to correct any item which he thinks erroneous, and to note the effect of the correction upon the result.

3	Suppose the total of this crop to be(bales) (or 169,000 bales less than the last crop)	4,500,000
	Suppose the portion used at the South and sent over-	
,	land to Northern mills to be only	400,000
	Then the total receipts at ports will be	4,100,000
	Of which had been received to Jan. 27	
	Leaving to be received after Jan. 27	1,094,000
	Add stock in ports Jan. 27	891,000
	Available supply from ports thenceforward	1,985,000
1	Suppose the Northern consumption 1,250,000	
-	Already taken from ports 489,000	
3	Overland to mills, say 211,000 — 700,000	
2	Yet to be taken for Northern mills 550,000	
9	Of which may be overland after Jan. 27 50,000	
1	Thus required for Northern mills from ports	500,000
	Leaving, bales	1,485,000
-	Allow for stock in ports Sept. 1	
3	Leaving for export	1,375,000
	Against export last year after Jan. 27	1,593,000
,	Total export last season	3,253,000
,	Total export this season, to Jan. 27 1,757,000	
,	After Jan. 27, if crop 41 millions 1,375,000-	-3,132,000
1	Reduction in supply of American cotton to Europe	121,000
•	-and more or less as the crop shall be less or n	nore than
)	4,500,000 bales.	

Assuming our crop to be 4,500,000 bales as above, that the Egyptian crop is 50,000 bales less, and that the supply to Europe from India will be 200,000 bales less than last year—(this last item being problematical, as we never know what India will turn out under the influence of price)—together they reduce the supply of the season 419,000 bales, compared with 1875-6, the deficiency of supply being felt chiefly in Europe, the effect on price, everywhere. There is believed to be a material falling-off this season in the average weights of bales. Its average of the whole crop is, of course, not yet known, but comparisons of the first half of the crop at various points indicate that it will exceed ten pounds per bale on the whole. At that rate the loss would amount to 100,000 bales of 450 lbs. each: call it 81,000 bales.

As above said, the supply (excluding old stocks) for this season in the world appears to be 419,000 bales less than in 1875-6, on the crop figures assumed. The difference in weights raises the loss to 500,000 bales.

Consumption in the United States has lately been reduced by short-water; yet, under the known tendency to the production of a heavier average of goods than in past years, and the improvement in business, the quantity of raw cotton used and to be used this season will probably exceed that of 1875-6, when there was some loss by short-time and strikes, as well as by the general discouragement of business. Consumption in England in 1875-6 was reduced by some short-time and stopping of mills (at Oldham, &c.) There is no apparent probability of short-time this season, or of any hindrance to the highest production of goods. To a material extent, the use in Great Britain of heavy stuffing of finished cloth is reduced or abandoned, and the piece-weights of the cloth kept up by an increase of cotton in it, by lower counts of yarn, or more thread, or both. Therefore a sensible increase in the consumption in England is to be expected. The consumption on the Continent ought to show its usual annual rate of increase.

On the foregoing premises the consumption should increase, in Great Britain, 80,000,000 pounds; the Continent, 50,000,000 pounds; United States, 20,000,000

pounds—in all 150,000,000 pounds, equal to 375,000 bales of 400 pounds each. (The average of European supply last season was about 403 pounds per bale.)

On the assumptions we have now stated, which every one interested in the cotton trade or manufacture should scrutinize closely before accepting, the season's supply of cotton (exclusive of stocks) promises to come short of that in 1875-6 by 500,000 bales, and the consumption to be increased by 375,000 bales—making together a difference of 875,000 bales, which, if used, must be drawn from the stocks.

The stocks in Europe, October 1, according to Ellison, were:

	Bales.
In ports (visible)	1,168,000
Surplus at mills (invisible), say-Continent 120,000	
Great Britain 20,000	-140,000
In the United States ports there were, Sept. 1	130,000
Total stocks at beginning of season	1,438,000

The conclusion of the whole matter is therefore that if the above deficit of 875,000 bales is made good out of last year's stock, it must reduce it, 1st October next, to 563,000 bales in Europe and America. Is it possible so far to reduce the stocks of cotton at the end of the season? Whenever such facts as the above, if they shall be facts, come to be recognized as such, will not prices necessarily advance so far as to check consumption? Especially should our crop turn out to be less than we have assumed?

FINANCIAL REVIEW OF JANUARY.

The month of January showed comparatively few movements of any special interest in financial circles. The principal event of importance was the adoption of the compromise plan by Congress for the settlement of the Presidential difficulty; and this was important, not alone for its present influence, but as furnishing a precedent for a method of settlement in case of any similar difficulties which may arise in the future.

The money market, which was quite firm in the early part of the month, soon became easier as the effect of interest and dividend disbursements was felt, and before the end of the month rates on call were fairly quoted at 4@5 per cent., and prime commercial paper 4½@6 per cent.

United States bonds were the most active of any investment securities, and, notwithstanding the low price of gold, advanced materially in the month. There was an unusually large demand from private purchasers of small amounts, which indicated an increase in the distrust of other forms of investment, and a growth in the public confidence in government securities.

CLOSING PRICES OF GOVERNMENT SECURITIES IN JANUARY, 1877.

Railroad stocks showed little buoyancy, and any temporary revival of strength and activity was quickly followed by a reaction. Railroad earnings in the latter months of 1876 were not generally favorable, then the decline in coal at the January sales worked disadvantageously for the coal roads, and altogether the tone was weak, and the main talk of the bulls in stocks was concentrated on the general hopefulness which should be felt inconsequence of the settlement of political difficulties, the advance in freight rates since the "war" terminated, and the probability of a recovery in mercantile prosperity in the immediate future.

The following table will show the opening, highest, lowest and closing prices of railway and miscellaneous stocks at the New York Stock Exchange during the months of December and January:

Gold remained pretty weak in the absence of any large demande either for speculative or legitimate trade purposes, and declined just at the close on the reports that President Grant was about to send a message to Congress advising speedy resumption. The rates for carrying gold became easier as the rates for money declined.

Foreign exchange was dull throughout, though showing more firmness than in December. The market was left to take a natural course as governed by supply and demand. There were no new railroad or municipal loans of any consequence placed abroad, but the Secretary of the Treasury called in \$20,000,000 more of five-twenties, in pursuance of his arrangements with the syndicate.

| From our own correspondent.]

LONDON, Saturday, Jan. 20, 1877.

The stock markets during the week have been greatly wanting in animation, and there has been some irregularity apparent, prices having risen and fallen in accordance with the interpretation which speculators and the country in general have placed upon the news from Constantinople. Speculators, owing to the uncertainty with regard to the issue of the Conference, have not been committing themselves to any important transactions. Even now, with the deliberations of the Conference nearly terminated, there is not much apprehension of war, as Russia claims that she has made the question of good government in Bulgaria a European question, and she also avers that it is not to her interest to fight with that object unaided by the other Powers. If this be true, the Czar said at Moscow more than he intended, cr more than he shou'd have judiciously uttered, as he then

announced his determination to enforce the reforms single-handed, if necessary. Prince Gortchakoff is, however, astute enough to find a loophole of escape, if necessary; but it almost seems, if no Power interferes, that Turkish diplomacy has triumphed, and that the Sultan and his advisors will have the laugh at Europe. Two things may, however, be hoped to result from the deliberations of the Conference: first, peace; and, secondly, an improved administration of the Turkish provinces. If those ends are gained, the Conference will not have met in vain; and, as it is evident that Turkey is not so sick as some of the would-be heirs to the Empire thought her to be, the Government have it in their power to raise the country from an almost degraded state to a condition which will command the respect of her neighbors and of Europe. The period is, however, a momentous one, and the policy which Russia is likely to adopt will obviously be anxiously awaited, as the question of peace or war depends entirely upon

The position of the Bank has not materially altered during the week. The supply of bullion, though still diminishing, amounts to as much as £27,355,314, against £21,981,619 last year, while the reserve of notes and coin is £14,317,794, against £9,669,819. Private deposits, owing to the large unemployed balances of the bankers, are still heavy, and amount to £28,086,715, against £19,708,224 in 1876. The proportion of reserve to liabilities is now about 44.23 per cent, against 44.34 per cent last week.

The money market is still unchanged, and the best short dated and three months' bills are taken at 11 to 11 per cent. There is, in fact, scarcely any demand for accommodation for mercantile purposes, there being no disposition shown to trade beyond legitimate means. A return to activity in commercial and financial circles is still impeded by the prolongation of the deliberations of the Conference, and by the state of suspense which naturally exists. Much as the community hope for, and are sanguine enough to believe in, peace, yet, they are quite indisposed to regard such a result as a certainty, but would, on the contrary, prefer to await defin'te news before committing themselves to large and speculative transactions. It is to be borne in mind that the country is only just emerging out of serious trouble, both in the world of commerce and finance. The mercantile position is now regarded as sound, and it is generally believed that only an assurance that there will le a permanent peace is wanted to give a stimulas to renewed activity and prosperity. Financially, the position is not so satisfactory, as Turkey and Peru are still defaulters, while the financial position of Spain and Egypt is not such as to promote much confidence. There is, nevertheless, some improvement, and perhaps when peace and quiet are restored, the financial resources of those countries will improve. The difficulties the country has had to contend against having been so recent, it can be scarcely expected that merchants will quickly embark in a bold policy especially as the conference is yet undissolved, and as uncertainties still exist regarding the political future. Financial enterprise is almost out of the question, except it be in connection with countries, corporations or companies enjoying good credit. These do not seem to require money just now, and as the public are only willing to trust their savings to safe keeping, capital remains unemployed and abundant. A new loan for Portugal is spoken of for £6,000,000, at a price to yield £3,000,000 in a three per cent stock; but it is understood that a contractor has not yet been selected. This is the only loan spoken of at present, but it would not be surprising, if peace is assured, if Russia endeavored to raise money in Western Europe.

A good deal of the gold sent away from the Bank this week is understood to have been in connection with the interest due on the Egyptian debt. The money for the payment of that interest was remitted to, or was otherwise held by, the Bank of England, and the necessary proportion has been in course of transmission to Paris for the benefit of the French bondholders. There is, however, a demand for gold for Germany and other places, and it is expected that the supply of bullion will be further diminished. The mercantile demand for money, however, being light, the rates of discount are as follows:

Bank rate Open-market rates:	t. Open-market rates: Per cent 4 months' bank bills 1% 211 6 months' bank bills 1% 32 4 and 6 months' trade bills 6
---------------------------------	---

The demand for the means of remittance to the East having improved, the silver market has been very firm, and the price of fine bars is now 574d. to 58d. per ounce.

The weekly sale of bills on India was held at the Bank of England on Wednesday. The amount allotted was £350,000, £339,900 being to Calcutta, and £110,100 to Bombay. Tenders on both Presidencies at 1s. 10 5-16d. for transfers, and 1s. 10\flactdd do for bills will receive 12 per cent, and above that price in full. Those prices exhibit a further improvement in the demand for the means of remittance to the East, the rate for bills on Wednesday last having been 1s. 10d. the rupee.

The wheat trade, though wanting in animation, is decidedly firm in tone, and good dry wheats, which are scarce, are advancing in price. The protracted wet weather has had a very injurious influence upon the English crop of wheat, notwithstanding that it was harvested in good condition, while the Scotch crop, which was badly secured, is coming to market in a state very unfit for milling purposes. There is, consequently, a strong demand for parcels of wheat suited for mixing with the damp English supplies, and hence, the value of these has a distinct upward tendency. That these will continue in request seems pretty certain, as there are no indications of a change in the weather; and we cannot, therefore, expect there will be any improvement in the condition of the supplies of home-grown produce. Hence, holders of good dry and hard foreign wheats have ust now a fair command over the market, and they are naturally raising their pretensions. In a short time, however, we shall be receiving larger and, indeed, liberal supplies of California produce, and these will no doubt supply a void which seems at the moment rather difficult to fill up; but millers are operating very cautiously, awaiting these supplies, and to this fact the quietness of the trade must in a great measure be attributed. Notwithstanding the firmness which has characterized the trade for some time past, the supplies of wheat affoat are diminishing rather than increasing, the shipments from the Atlantic ports of the United States having been upon a comparatively small scale. stocks of foreign wheat in the United Kingdom have also been reduced considerably, and there is much reason to believe, therefore, that, even apart from political considerations, a firm tone will pervade the trade for some time to come. Our wants, it is well known, are very great, and had it not been that the stocks of wheat on hand at the close of August last were very considerable, the rate of importation for the current season would have been far below our requirements. At the present moment the prospect with regard to supplies is less satisfactory than it was at the commencement of the season, for the supply of wheat afloat is by no means great, considering how vast are our wants, while not only has a large inroad been made into the accumulated stocks of foreign produce at our outports, but a very considerable proportion of our home crop has been con sumed. In fact, the English crop, owing evidently to the financial necessities of the farmers, who have for two seasons sold their wheat at a low price, has been marketed very freely, and it is quite clear that for the remainder of the season the deliveries

at market must be small. It now remains to be seen how far the present firmness of the trade will have the effect of augmenting the supplies of wheat afloat. American farmers and merchants it would seem, have either but little, comparatively, to sell, or else they are strong believers in a higher range of prices, and, favored as they are with an easy money market, are disposed to hold out for more remunerative terms. It must, nevertheless, be borne in mind that the countries which supply our wants have become numerous; that from the countries bordering on the Black Sea there will be in the spring, should there be no war, somewhat important supplies, as they will have heavy losses to repair, and grain will be one of the most marketable articles of produce they will be able to dispose of. At the same time it must be admitted that there is not at present any prospect of supplies exceeding our great requirements, and consequently it would take but little to stimulate a further upward movement in prices, especially as regards those descriptions of wheat which are suited for mixing purposes, as the demand for them must continue to be pressing as long as the present damp weather lasts

Partly owing to the wet weather, which greatly impedes threshing operations, but arising chiefly out of the fact that a large proportion of last year's crop has already been marketed, the deliveries of home grown wheat at the principal markets of England and Wales were only 34,063 quarters, against 43,412 quarters; while in the whole Kingdom it is estimated that they were 136,300 quarters, against 173,700 quarters. Since harvest, the deliveries in the 150 principal markets have amounted to 988,000 quarters, against 924,577 quarters; and it estimated that in the whole Kingdom they have been 3,952,000 quarters, against 3,698,-300 quarters in the preceding season. The increase this season, over its predecessor, now amounts, therefore, to 253,700 quarters. It is estimated that, without reckoning the supplies furnished ex granary, the following quantities of wheat and flour have been placed upon the British markets since last harvest:

1876-7.	1875-6.	1874-5.	1872-1.
Imports of wheat 14,850,228	24.801.281	cwt. 15.583,891	cwt. 18,165,486

It is stated that the dispute in the Lancashire cotton trade is likely to be protracted. On Wednesday, another meeting of the Joint Committee was held in Blackburn to consider the sixteen proposals of the operatives, which had been submitted as a settlement of the dispute, and in order to avert a lock-out. All those conditions the masters absolutely rejected, as they would increase the average list of wages. The operatives will shortly hold a meeting.

The master cutler at Sheffield, the other day, addressed his work-people, and mentioned to them that as they had accepted a reduction in their wages when trade was bad, he would take an been as follows: early opportunity of returning to the previous rate of pay, as improving business would justify it.

English Market Reports-Per Cable.

The daily closing quotations in the markets of London and Liver-col for the past week have been reported by cable, as shown in the following summary:

Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in dry goods and an increase in general merchandise. The total imports amount to \$5,641,431 this week, against \$5,196,030 last week, and \$6,985,332 the previous week. The exports amount to \$5,535,160,this week, against \$6,375,186 last week, and \$6,497,867 the previous week. The exports of cotton the past week were 7,553 bales, against 9,207 bales last week. The tollowing are the imports at New York for week ending (for dry goods) Jan. 25, and for the week ending (for general merchandise) Jan. 26:

POREIGN Dry goods	1874. \$2,727,250		1876. \$1,985,175 3,421,694	1817. \$1,725,163 3,916,268
Total for the week. Previously reported	\$5,883,972		\$5,406,869 22,294,115	\$5,641.431 17,441,061
Since Jan. 1	\$25,645,597	\$25,239,137	\$27,700,984	\$23,032,492

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending EXPORTS FROM NEW YORK FOR THE WEEK 1875. 1875.
For the week\$5,406,967 \$3,511,42 \$5,670, Previously reported 15,374,522 13,132,930 14,231.

FRIDAY, FEB. 2, 1877-6 P. M.

The Money Market and Financial Situation.—A flurry in gold and government bonds was occasioned this week by the reports from Washington that President Grant was about to send a message to Congress recommending a speedy resumption of specie payments. Gold fell to the extraordinary figure of 1047, and government securities declined sharply in sympathy.

Hon. John Jay Knox, Comptroller of the Currency, furnishes the following statement, showing the issue and retirement of national bank notes and legal tender notes, under the Acts of June 20, 1874, and Jan. 14, 1875, to Feb. 1, 1877:

NATIONAL BANK NOTES.	
Outstanding when act of June 20, 1874, was passed \$4,734,530 Issued from June 20, 1874, to Jan. 14, 1875 \$4,734,530 Redeemed and retired between same dates 2,767,282	\$ 349,894,182
Increase from June 20, 1874, to Jan. 14, 1875	1,967,268
Outstanding Jan. 14, 1875. \$46,836,331 Redeemed and retired from Jan. 14, 1875, to date. \$46,836,331 Surrendered between same dates. 7,361,436	\$ 851,861,450
Total redeemed and surrendered \$54 197,757 Issued between same dates 21,268,985	
Decrease from Jan. 14, 1875, to date.	32,928,772
National bank notes outstanding at date	\$318,937,678
GREENBACKS.	
On deposit in the Treasury June 20, 1874, to retire notes of insolvent and liquidating banks Greenbacks deposited from June 20, 1874, to date, to retire	\$3,813,675
National Bank notes	63,948,604
Total deposits	\$67,762,299
dates without reissue	49,603,533
Greenbacks on deposit at date. Greenbacks retired under act of Jan. 14, 1875	\$18,158,746 17,015,188 364,981,812

Our money market grows easier as the banks accumulate funds, which they are at a loss to know how to use. Call loans are freely quoted at 3@4 per cent., and prime paper at 4½@5½.

The Bank of England statement on Thursday showed a decline in specie of £580,000 for the week, and the discount rate remained unchanged at 2 per cent.

The last statement of the New York City Clearing-House banks, issued January 27, showed an increase of \$513,800 in the excess above their 25 per cent. legal reserve, the whole of such excess being \$24,781,800, against \$24,268,000 the previous week.

The following table shows the changes from the previous week and a comparison with the two preceding years:

		1877	1876.	1875.		
	Jan. 20.	Jan. 27.			Jan. 29.	Jan. 30.
Loans and dis.	\$252,411,900	\$253,158,100	Inc	\$741,200	\$262,207,000	\$286,452,800
Specie	40,974,900	40, 187,000	Dec.	787,900	22,481,700	17,180,600
Circulation			Inc	4,000		23,801,800
Net deposits				3,282,900		
Legal tenders.	40, 128, 800	42.231.200	Inc	2,122,400	48,030,000	57.861 600

United States Bonds .- The market for governments became United States Bonds.—The market for governments became demoralized in sympathy with the decline in gold, on the reports from Washington that President Grant was preparing a message to advise the immediate resumption of specie payments. Prices fell off sharply, and the German bankers were free sellers, as the fall in gold preceded that in bonds and gave them a margin for operating between this and foreign markets. Latterly, there was some recovery, and since Thursday afternoon the feeling has improved materially, and a steadier tone prevails at the close. Closing prices of securities in London have been as follows:

	Jan. 19.	Jan. 26.	Feb.	Range since Lowest.	Jan. 1, '77.— Highest.

State and Railroad Bonds .- Southern State bonds are generally strong, and Louisiana consols were 63 bid to day at the New York Board. South Carolina consols are also strong and quoted at 57@581. Tennessees sold to-day at 43 for old

bonds.

Railroad bonds have shown only a moderate activity, but prices of good bonds, unclouded by suspicion of default or litigation, are generally strong. In the Ohio and Mississippi matters it is said that argument will be heard on the 14th inst., at Chicago, on the petition for removal of receivers, &c. In the Milwaukee & St. Paul suit now before the courts, the legality of the sale of the old La Crosse & Milwaukee road is called in question, and notwithstanding the remote prospect of success, the stock of that road, which has been practically worthless, has met with a temporary demand at a low figure. The several Pacific Railroad bills are now before Congress, but it is useless to refer to their respective provisions until it is known which one of them, if any, is likely to become a law.

* This is the price bid; no sale was made at the Board.

Railroad and Miscellaneous Stocks .- The stock market has shown no decided activity, and the principal feature of the week was the decline in the coal road stocks, led by Central of New Jersey. As to the latter company, the immediate cause for New Jersey. As to the latter company, the immediate cause for a new break in its stock was the common report, which was apparently not denied, that the company would go to protest on its obligations unless money was raised in some quarter to relieve it. Since the meeting of stockholders held this week the

stock has partially recovered, and it remains to be seen how freely the stockholders will subscribe to prevent the property from going into the hands of a receiver. The low prices of coal have worked against Del, Lack. & Western and Del. & Hudson, and the prices of these stocks have been depressed. Illinois Central continues weak, and the earnings for January will be looked to with some interest to see whether they compare any better with the previous year, than have the earnings of recent months for some time past. Lake Shore and Michigan Central have shared in the general weakness, and it is regretted that the latter company, under the new management of Mr. Sloan, has discontinued its reports of earnings which have been made regularly before for a number of years past. The only two roads forming portions of trunk lines that have been accustomed to give reports of their earnings—the Michigan Central and Ohio & Mississippi—have now discontinued. The St. Pauls, Northwest, Reck Island, and Western Union Telegraph have been tolerably steady on a moderate business.

steady on a moderate business.

Total sales of the week in leading stocks were as follows:

The Gold Market....The principal point of the week was the fall in gold on Thursday to 104\(\frac{1}{2}\). This further decline is attributed to the Washington reports that President Grant is about to advise an almost immediate resumption of specie payments, together with the trade influences and bearish feeling in this market which have been noticed for some time past. There are various opinions here as to the course of gold, and while one party considers the price already abnormally low, the other side urges that there is no reason why gold should rule at anything more than a nominal premium—say 101 to 103—and that the present decline is likely to be permanent. To day, the price opened at 105\(\frac{1}{2}\) and closed at 105\(\frac{1}{2}\). On gold loans the rates were 4, 4\(\frac{1}{2}\), 3 and 3\(\frac{1}{2}\) for carrying. Silver is quoted to-day in London at 57\(\frac{1}{2}\)d. per oz. Customs receipts of the week were \(\frac{1}{2}\),2,173,000. The following table will show the course of gold, and gold clearings and balances, each day of the past week:

		Quot	ations		Total	Bala	inces —

The following are the quotations in gold for foreign and American coin:

Exchange.—Foreign exchange remains steady on a small demand. Except for the purchases by bankers who import bonds, there would be very little doing. On actual business to day the rates were about 4.844 for prime bankers' 60 days' sterling, and 486 for demand.

In domestic exchange the following were rates on New York to-day at the undermentioned cities: Savannah, buying par, selling ‡@‡ premium; Charleston, easier, buying ‡@‡, selling 1-16 par.; Cincinnati, quiet and steady, buying par, selling 1-10 premium; Chicago, par to 25 premium; St. Louis, 50 premium; and New Orleans, commercial, par@1-32 premium, and bank ‡

Quotations for foreign exchange are as follows:

The "Investors' Supplement" is published on the last Saturday of each month, and furnished to all regular subscribers of the CHRONICLE. No single copies of the Supplement are sold at the office, as only a sufficient number is printed to supply regular

ANNUAL REPORTS.

Lehigh Valley Railroad Company.

(For the year ending November 30, 1876.)

The annual report says: The coal tonnage for the past year as larger than for any previous year, with the exceptions of 873 and 1874. The following are the totals for each of the past ye years, including both anthracite and bituminous coal: 1873 and 1874.

are years, meranag as		1		Tons.
1872	3,877,719	1875	 	. 3,333,474
1873	4,172,366	1876	 	. 3,987,018
1874	4,177,282		 	

This shows an increase during 1876 of 653,546 ons over the

preceding year.

The great reduction in the price of ca. 'as caused a corresponding decrease in the charges for transportation.

The total road receipts and expenses for the year are shown

below:		
From transportation of : Gross Receipts. Coal	Expenses. \$2,549,344 785,552 507,853	Net Receipts \$2,480,897 405,946 320,053
Total. \$7,049,646 1875. 6,046,495 lucresse. \$1,903,151 Increase per cent 16 59+100	\$3,842,750 8,962,661 \$579,988 17 77-100	\$3,206,896 2.783,633 \$423,263 15,21-100
Income from all sources, including interest recements, &c., amounted to		\$8.037,247
Net income		\$4,194,497

On November 30, 1876, the close of the fiscal year, the capital

account was as lollows .	
Preferred and common stocks, including scrip not yet converted	\$27,228,920
Six per cent bonds, due in 1998 (coupon and registered)	5,000,000
Seven per cent registered bonds, due in 1910	6,000,000
Consolidated morig ge bonds	. 13,186,000
Floating debt, less cash on hand	460,208

The increase of the capital account beyond the amount in the last report is \$2,653,830. This is represented by the following expenditures, the difference in the totals being made up by cash assets on hand at close of last year.

arbeis on hand at close of last year.	
Increased locomotive and passenger car equipment	\$294,898
Increased cont at d freight car equipment	590,540
Easton & Amboy Railroad	1.044, 170
Ba'ance due by Eric Railway Company as explained below	675,000
Redemption of Morris Canal bonds	578,000
Purchase of additional interest in Geneva, Ithaca & Sayre Railroad	0.0,000
Company	121,203
Advanced for construction purposes to Penn, & N. Y Canal & Rail-	2-2,000
road, for which we receive their ten per cent preferred stock	200,000
•	

\$3,498.815 The first and second mortgage bonds of the Morris Canal and Banking Company, in all \$785,000, became due in April last, and have been paid by us, and the mortgages are satisfied. That company has created a new first mortgage for one million dollars, of which amount, bonds have been delivered to us for those paid

of which amount, bonds have been delivered to us for those paid and canceled, and the remainder is held to be exchanged for any further indebtedness of theirs which we may discharge. The Easton & Amboy Railroad has been operated since its opening as a part of our own road, and we transported over that division \$81,459 tons of anthractic coal during the year. The double track has been completed throughout, and the necessary saidings, station-houses, etc., furnished for the proper working of the line and large additions made to the shipping facilities. sidings, station-houses, etc., furnished for the proper working of the line, and large additions made to the shipping facilities at Perth Amboy. The total cost of this road and its appurtenances, at the close of our fiscal year, was \$9,544,038. This road is wholly owned by us, and is free from all debt.

The Pennsylvania and New York Canal & Railroad Company, has continued to be our most valuable feeder and outlet for business, as well as a very important source of income as an investment. Besides holding a majority of the common stock, this company owns \$3,977,400 of their preferred stock.

The Ithaca & Athens and Geneva & Ithaca Railroad Companies, whose lines were built as a northern connection of the Pennsylvania & New York Railroad, passed into the hands of a receiver

whose lines were built as a northern connection of the Pennsylvania & New York Railroad, passed into the hands of a receiver early in 1875, and the property and franchises were sold in September last. We joined with other bondholders in their purchase. The two companies were reorganized under the laws of the State of New York into a new corporation, as the Geneva, Athaca & Sayre Railroad Company, with a present capital stock of \$850,000, subject to a debt of \$600,000, bearing interest at seven per cent in gold, being the first mortgage bonds of the Ithaca & Athaen Railroad Company, and secured by mortgage of the thir y-five mites south of Ithaca. The whole line is seventy-five miles in length, connecting the line of the Pennsylvania & New York Railroad at Sayre with that of the New York Central Railroad at Geneva. Of the above-named capital stock, we hold \$693,400.

Our business with the Erie Railway Company, at Waverly and Elmira, having always been subject to inconvenience, in con-

sequence of the difference in gauge, an agreement was entered into with the receiver of that company, under sanction of the proper Court in New York, by which we advanced the rails, etc., necessary to complete the 4 foot 8½ inch gauge to East Buffalo, thus enabling our cars to pass directly from our own line to Buffalo and to the International and Suspension Bridges, and putting falo and to the International and Suspension Bridges, and putting us into connection with all the lines centering at those points. The amount advanced under this contract was \$903,531, to be repaid with interest in monthly instalments, and there were coming to us at the close of our fiscal year \$675,000, we having been repaid \$228,531 to that date.

Neither the lands owned by us, nor those owned by the Lehigh Valley Coal Company, are subject to any bonded or other debt. The only guarantee of this company, in connection with our coal interests, is that of the bonds of the Delano Land Company, covering 5,329 acres of coal land in Schuylkill county, with eight collieries in operation, and amounting to \$1,697,000, of which \$312,000 are owned by us.

\$312,000 are owned by us.

Pennsylvania & New York Canal and Railroad.

(For the year ending November 30, 1876.)

The report has the following:
The earnings and expenses for the year ending November 30th,
1876, were as follows:

1010, 11010 111 10110 112 .			
From Transportation of coal		Expenses. \$598,016 269,749	Net receipts. \$351,556 117,580
Transportation of passengers, express and mail	318,502 632	200,926 1,527	Loss 117,566 895 22,301
Total		\$1,070,929 942,162	\$608,109 588,878
Increase	\$197,213	\$127,982	\$69,231

There have been paid during the year \$210,000, for interest on bonds, leaving \$398,109 08 applicable to taxes, dividends, interest, etc. It is proposed to declare a dividend of \$350,000, being

10 per cent, on the preferred stock outstanding in 1874.

It is gratifying to note an increase in receipts from every branch of the traffic of our road, despite the continued severe depression of the business of the country.

The total coal tonnage for this year is 1,165,952 12-20 tons, and is compared with last year's tonnage as follows:

Anthracite	1975. Tons. 744.073 335,191	1876. Tons. 804,344 361,607	Tons. 56,271 26,416
Total	1.083.264	1,165,952	82,688

St. Louis Vandalia & Terre Haute Railroad Company.

(For the year ending October 31, 1876.)

The report shows the following :

EARNINGS IN DETAIL COMPARED WITH LAST YEAR.

From freights From passengers From express From mails	1876. \$618,626 399,788 31,309 37,532	1875. \$592,913 349,073 33,552 30,677	\$25,712 50,709 6,855	Becrease \$
Totals		\$1,003,210 comparative	\$80,125 expenses	of the

lessee during 1874-75 and 1875-76:

	1576.	1875.	Increase.	Decrease
Conducting transportation \$	215,153	\$250,129	8	\$4,974
Motive power		207,068		15,532

General expenses	23,953	3 ,735	*****	8,782
Totals\$	814, 82	\$820,559	*****	\$5,677
The result to the lessee in	the	operating of	the road	during

1875-76 was as follows:

From the earnings as above should be deducted the net amount paid on account of division of earnings with other companies, \$24,170, leaving total earnings, on which rental is to be

computed, \$1,062,075. Thirty per cent of the preceding amount, being rental, is	\$318,629 159
Total r venue	

	Interest on 1st mortgage bonds	\$132,930	
١	Taxes. General expenses	20.108	836,791
	Leaving a deficit for the year, and advanced by the lessee, o	f	\$18,009
	Leaving a deficit for the year, and advanced by the lessee, of Deficit for 1875, as then ascertained	5,382—	131,817

Of this deficit, \$201,000 is composed of the interest, charged in

1874, for two years and one month, on the income bonds, since exchanged for preferred stock.

Of the whole amount of increase in the freight earnings, \$25,392 was in that received from or destined to other roads, and \$330 in the local freight business; this result having been

the tc.. lo, uf-

th.

109

231

ng

ad

reached in the face of a decrease in the average rate received, equal to 4 23-100 mills per ton per mile, or 15 48 100 per cent, in the case of the local tonnage, and 0 33-100 mills, or 3 86-100 per cent, in the foreign tonnage.

A very gratifying increase is shown in the coal tonnage. The total tons carried in 1876 were 223,830, as against 182,863 in 1875, the increase being 40,403 tons, equal to 22 14 100 per cent. The earnings realized from this c'has of traffic were, however, increased only \$2,875 74, or 2 8-10 per cent. This disparity between the increase in coal earnings and the augmented tounage was caused by undue competition for the business among the railroads entering St. Louis.

The amount of earnings absorbed by expenses was 81 54-100 per cent in 1875, and 75 per cent in 1876, being a reduction on this basis of 6 54-100 per cent of earnings, or 8 02-100 per cent of expenses.

expenses.

There have been no expenditures made during the year for additional construction and equipment. The payments appearing as additional charges on this account were in settlement of claims incurred prior to 1875.

GENERAL INVESTMENT NEWS.

Bank of Tennessee Notes.—The Supreme Court of Tennessee has decided that the holders of the new or war issue of the Bank of Tennessee are entitled to the assets of the bank in preference to any other creditors. The amount issued is variously estimated from \$700,000 to \$1,000,000, and will consume the entire assets of the bank which is profin liquidation. The matter will assets of the bank, which is now in liquidation. The mago to the United States Supreme Court for final decision. The matter will

Boston Water Power.-The committee of the company have Boston Water Power.—The committee of the compr ny have notified the bondholders that that the company have been unable to carry out in full the proposition submitted at the last meeting, but from various causes have found it impossible to borrow money sufficient to pay the coupons of December 1, 1875, and have only succeeded in paying one-half of the interest to the savings bank on the underlying mortgages. The company, however, have given to the trustees of the bondholders their note for \$50,000, for one year, at seven per cent, secured by the first mortgage of a lot of land on the Back Bay, this being collateral security for the payment of the overdue December coupons.

Central of New Jersey.—At a meeting of stockholders held on Wednesday, on the invitation of Mr. E. C. Knight, President, it is reported that more than half the stock was represented. The meeting was private, but it was afterwards stated that Mr. Knight made an address denying all the damaging rumors that have been in circulation lately, more especially that the road was to be placed in the hands of a receiver, or that he intended to resign the presidency, and that other changes in the management were to take place. He declared that while he held the position of president he was determined not to allow the road to go into resign the presidency, and that other changes in the management were to take place. He declared that while he held the position of president he was determined not to allow the road to go into the hands of a receiver. The interest on the first mortgage bonds of the company would be paid at the office on Thursday. He then asked those present to subscribe for the \$3.000,000 of certificates of indebtedness authorized by the Board of Directors in December last, in order to pay off the floating debt and enable the company to meet all its maturing obligations. These obligations are supposed to consist of moneys due to the Lehigh Ccal & Navigation Co., and part of the interest due Feb. 1, although it is understood that the latter was fully provided for last week.

These certificates of indebtedness that are now being issued are secured by a deposit of the mortgage bonds of the Lehigh & Wilkesbarre Coal Co., owned by the company, with the trust company in Philadelphia, of which Mr. Knight is president—the agreement being that \$5,000 of the mortgage bonds are to be deposited for every \$3,000 of the certificates issued.

Central Pacific Bonds.—Cyrus G. Clark, residing at the Grand

Central Pacific Bonds.—Cyrus G. Clark, residing at the Grand Central Hotel, was arraigned before Justice Kilbreth at the Tombe Police Court on a charge of uttering 21 forged bonds of \$1,000 each of the Central Pacific Railroad Company. The bonds were offered as collaterals for a loan at the East River Nat. Bank, and when presented at the office of the Central Pacific Railroad Company, they were immediately pronounced to be spurious. The genuine issue was shown, and by comparison it was easy to detect many imperfections both in the engraving and the signa-

Chicago Burlington & Quincy.—The new five per cent sinking fund bonds (\$2,200,000), secured by pledge of a like quantity of the St. Louis Rock Island & Chicago Railroad's seven per cent bonds, have been awarded to Messrs. Morton, Bliss & Co., and Lee, Higginson & Co., at \$875 05 per bond of \$1,000.

Chicago Milwaukee & St. Paul.—The following is a summary statement of the gross and net earnings, operating expenses, interest, dividend, &c., for the year ending Dec. 31, 1876:

Gross ear dings Operating expenses	\$8,054,171 4,958,324
Net earnings Interest on mortgage debt to July 1, 1876	\$3,100,817 1,0 8,585
Dividend on preferred stock, Oct. 5, 1876	\$2,022,161 429,606
Sinking fund, Dec. 26, 1816	\$1,592,554 53,000
Interest on mortgage debt to Jan. 1, 1877	\$1,539,554 1.032,397
Balance	\$477 157

The Cincinnati Southern Railroad.—The bill proposed by the Southern Railroad Committee of the Cincinnati Board of Transportation to provide for the future of the Southern road, is substantially that the present trustees of the Cincinnati Southern Railroad should be authorized by law to operate such portions of the road as may be completed from time to time by a system of tolls to persons or companies running and furnishing cars and necessary equipments, or by the organization of the necessary force of employees, and the purchase or lease of suitable equipments for operating said road.

Consolidated Virginia Mining Co.—From a late report the

Decatur Sullivan & Mattoon.—This road is noticed for sale in foreclosure, at Springfield, Ill., on the 14th of February. The road has recently been known as the Chicago & Illinois Southern.

Detroit & Milwaukee.—The Detroit Tribune says: The first and second mortgage bondholders of the Detroit & Milwaukee Railroad held a meeting in this city Wednesday, three-fourths of the \$4,500,000 involved being represented. Messre, H. N. Walker, George Jerome, George Aendrie, Detroit, with Sir. Charles Young of England, and Mr. Martin of Hamilton, Oat., were appointed a committee to win 1 up the affairs of the present organization and start it off on a new basis (after foreclosure) under the name of the Detroit Grand H ven & Milwankee Riilroad. They were empowered to settle the differences with other railroads and corrorations and to issue \$5,000,000 in bonds to railroads and corporations, and to issue \$5,000,000 in bonds to run thirty years, a part of these to be given in exchange for old bonds, and for the payment of debts already incurred and of expenses necessary by the reorganization.

Illinois Central.—The Secretary of this compuny, Mr. L. A. Catlin, wrote at some length to the stockholders in Holland, under date of December 5, stating, in substance, that the great decrease in earnings has arisen from the number of new lines crossing the Illinois Central and the ruinously low rates of freight by rail to the East, which have prevented grain from going to Chicago for lake transportation. He says in his letter:

going to Chicago for lake transportation. He says in his letter:

"We have been obliged to accept lower rates or give up the continuity of the says of seven years past, and our deliveries of grain at Chicago tave fallen from 18,00,000 to burshel to about 8,000,000. Until the present year there has been an increase of miscellaneous traffic, which made up the losing business in corn, and our net results gave an honestly-carned dividend to the shareholders. But through the present year, he contest of the trunk lines has been more bitter than at any previous time, almost reaching the point of paying for the privilege of taking freight.

* * So disastrous is this competition, that it is within bounds to say that seven-eighths in number of the railways in the middle Statesa e braight to the verge of bankruptcy. This cannet occur to the Illinois Central with its small debt and the condition of property itself. The road, the michinery, and the railway stock are fully maintained, and compare favorably with those of the best roads in the country. It is the impression of the board that we shall find relief by our routhern connection whenever we obtain posse sion of the New Orleans lines, and effect we king arrangements with the Mobile & Ohio Road, and the Iron Monitain (which connects with the railways of Texas), so that we my build us a traffic to and from the South, to take the place of our grain traffic, if this is not partially restored to us by a settlement of the contest going an between the seaboard lines."

—In Amsterdam a meeting of stockholders were hall a

—In Amsterdam a meeting of stockholders was held, January 15, at which Dr. de Klerck reports some "7,556 certificates were represented, though about 70,000 are issued here. The intention represented, though about 70,000 are issued here. The intention was to appoint a man of influence and knowledge to inquire in America about the condition of the company and the means to avoid the bad effect of the competition of other railroad companies. After much discussion, the administration here got power to appoint such a man, Mr. de Marez Oyens having declined to accept this commission. In our market the public continues daily to sell the shares of said company, as it fears that the mentioned publications and proposed agency will be the beginning of the end of the payment of dividends."

Louisville Paducah & Southwestern.—The Louisville & Nashville Railroad Company bought only the Cecilia branch of the Louisville Paducah & Southwestern Ruilroad. The main line is taken over by the bondholders, who have organized into the Paducah & Elizabethtown Railroad Company. Amicable working arrangements for connection with Louisville over the main line of the Louisville & Nashville Railroad have been made. Possession of the main line was taken February 1.

Macon & Brunswick.—In his recent message, the Governor of Georgia states the operations of this road, for the year ending Nov. 30, as follows:

Gross earnings (\$1,613 per mile)	\$317,829 307,054
Balance	\$10,774 47,701
Total	\$58,475
Of these balances due, \$18,097 62 have been collected	I. The

pointy of the management has been to improve the condition of the road as much as possible. Proposals have been invited for the sale or lease of the road; if no acceptable bid is received, some action by the legislature will be required.

Maxwell Land &c., Bonds.—A member of the committee in Amsterdam writes under date of January 2, taking exception to the tone of Dr. de Klerck's remarks in the CHRONICLE of Nov.

Amsterdam writes under date of January 2, taking exception to the tone of Dr. de Klerck's remarks in the CHRONICLE of Nov. 11, as being too unfavorable to the proposed plan of reorganization. As to the facts of the case, which are chiefly important to our readers, he sends a copy of the Amsterdam Effecten Blad, with an article containing the following:

"What is the good of publishing in an American newspaper that the holders are convinced that, under the grant, they cannot lay claim to more than twenty-two leagues—which, moreover, is a gross untruth? In the committee's pamphlet treating of the plan of reorganization referred to, it was positively and markedly shown that the letter of Minister Cox is based upon an entirely erroneous interpretation of the law, which is likewise the opinion of the most able American jurists, such as Evarts; Davies, Bayard, Benjamin, and even that of Minister Cox's successor, Minister Delano. What evidence is there now to show that the meeting was of a different opinion or had another conviction? The committee, at least, did not favor any other opinion. The committee, at least, did not favor any other opinion

Missouri Pacific.—This company entered suit, January 26 in the Circuit Court of St. Louis County against the Atlantic & Pacific Railroad (now called the St. Louis & San Francisco Road) for breach of contract, and asks judgment in the rum of \$7,650,000. The suit growsout of the lease of the Missouri Pacific and its branches, made in June, 1872, to the Atlantic & Pacific, which, it was claimed by the plaintiff, was unlawfully broken.

New York City Surface and Elevated Railroads. — The Tribune gives the following figures, taken mainly from the reports made to the State Engineer, and says of the Elevated Road: "For the last three months of 1876 the receipts were \$64,450. The "For the last three months of 18.76 the receipts were \$64,450. The average number of passengers given in the table is for the month of December, but since the opening of the new year the daily average, with the exception of Sundays, has been about 10,200. The facilities for carrying a still larger number of passengers by this road are also increasing. In March, two more engines will be put in use, and if the road is completed to the Battery, it is doubtful if even these will be equal to the demand. In the schedule time on the surface roads little allowance is made for stops. The running time on the Elevated Road for five miles is 28 minutes, allowing for 14 stops. If each of these takes half a minute—they usually consume more time—the rate of speed would be a mile in four minutes. If no stops were made, the five miles could be run in 14 minutes."

The receipts from coal sales during 1875 showed a surplus of \$145,876, after payment of interest, taxes and expenses. The stock of the company is registered at the Union Trust Company,

St. Louis Laurence & Western.—This road will be sold in foreclosure at Laurence, Kansas, Feb. 23, 1877. It was formerly known as the St. Louis Laurence & Denver.

Tennessee Finances.—The following resolution has been passed by both Houses of the Tennessee Legislature, and signed

passed by both Houses of the Tennessee Legislature, and signed by the Governor:

Whereas. The General Assembly has with pleasure received, through the message of his Excellency, the Governor, the communication of certain gentlemen, holders of the bonds of the State, and representatives of holders of bonds, asking a conference, looking to a permanent and equitable adjustment and compromise of the claims held by them against the State; therefore, be it

Resolved, by this General Assembly, That the Governor be requested to communicate by telegrams or by letters with the gentlemen holding securities of the State, mentioned in his message, and with others holding bonds of the State, and request them to submit, at the earliest day possible, through him, to this General Assembly, any proposition or propositions of adjustment and compromise which they may desire.

Texas Railroad Bonds.—The prices of bonds in January is referred to as follows in the circular of Messrs. Forster, Ludlow & Co.: "Railroad mortgage bonds were neglected. Texas Central 1st 7 per cents, gold, Main Line, were held at 86½-87, with 85½-86 bid; the transactions were few. The Western Division sold down to 81 cents, on account of the completion of the International road to Austin, which will deprive the Western Division of a great deal of its traffic. The Waco branch mortgages were neglected, and the 2d consolidated bonds are nearly unsalable, except at a large reduction. Galveston Houston & Henderson 1st 7 per cents, gold, were duil at 73 bid and 75 asked. Galveston Harrisburg & San Antonio 1st 6 per cents, gold, sold at 83 cents; the bonds are now held at 85 cents and are advancing. Texas Western Narrow Gauge 1st 7s paid its interest promptly on the few bonds sold; it is impossible to make a quotation. There has been some inquiry for International railroad stock."

Railroad Construction in 1876.—"The distribution of the construction of the last year is peculiar. Nearly one-

Bailroad Construction in 1876.—"The distribution of the construction of the last year is peculiar. Nearly one-half of the new road is in four of the thirty-eight States. Illinois, which built 686 miles and 9½ per cent of the whole in 1872, has but 49 miles and 2 per cent of the whole in 1872, has but 49 miles and 2 per cent of the whole in 1876; but Texas built very nearly as much last year as ever before, and a much larger proportion of the whole, taking the lead of the States with 388 miles and 16 per cent of the whole. California follows with 350 miles and 14 1-3 per cent of the whole. The tourth place is taken by Colorado, the newest of all the States, with 155 miles of road and 6 1-3 per cent of the whole. The only other States which have more than 100 miles of new road are Kentucky, in which the City of Cincinnati has built 133 miles in a single line; Wisconsin, where the Potter law had reinforced more natural causes to prevent construction for two years previous, but which last year celebrated the repeal of the law by leading the Northwest in mileage constructed—124 miles; and Missouri, which has 109 miles.

"The greatest length constructed by a single company is 196 miles by the Southern Pacific. Then follow: Cincinnati Southern, 138 miles; Texas & Pacihc, 120; Columbus & Toledo, 117; Denver & Rio Grande, 108."—Raitroad Gazette.

—The official statement in regard to the Washington Life Issurance Company, made by the New York Insurance Department appears in our columns to-day. The Insurance Superintendent says its management is "able, prudent and honorable," and that, after a most thorough examination of each item of its assets, he finds nothing to condemn but much to commend. This official endorsement of the old Washington Life is flattering to its executive management, and must be acceptable to its reliable. official endorsement of the old Washington Life is flattering to its executive management, and must be acceptable to its policyholders and friends. It will be seen by reference to the report that its officially examined and admitted assets foot up \$5,173,278 83, its gross liabilities \$4,386,685 83, and its surplus \$786,593. In addition to these assets, officially admitted, are \$92,216 53 other good assets not technically admissible under the laws, which would increase the surplus over all liabilities to over \$2,878,809. The Washington has some special non-forfeitable features, whereby its policies are continued in force notwithstanding non-payment of premiums, well worthy the examination of the public. of the public.

—The annual report of the Cooper Union for the Advancement of Science and Art, for the year 1876, shows a revenue of \$50,603, and expenditures of \$50,292. In the continued prosperity and usefulness of this noble charity, the general public has a great

—Mr. J. Bell Austin, stock broker, formerly of No. 319 Walnut street, Philadelphia, has removed to No. 203 Walnut place (316 Walnut street). Mr. Austin's name has been familiar to the readers of THE CHRONICLE for a number of years in our advertising columns, and those having occasion to purchase securities through his agency will note the change of address.

—The card of the New York Mutual Insurance Company (Marine) is found in our advertising columns. This old company, organized originally on the stock plan in 1798, is conservatively managed, and its executive officers, who are known to us as gentlemen of high standing, give most careful personal attention to the details of the company's business. Our friends in the cotton trade having occasion to place marine risks may find it advantageous to ascertain the terms offered by this company. tageous to ascertain the terms offered by this company.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, February 2, 1877.

Speculation in the principal staples of domestic produce has declined, at least so far as it involved operations for an advance in prices; and as obstacles to transportation are removed, general trade increases in volume, while there is much less complaint than formerly of unremunerative returns. Collections are fair but all classes of buyers operate with much prudence, and there is neither activity nor buoyancy pervading mercantile circles; simply a patient and more confident waiting for the progress of events. The political horizon is calm on both sides of the Atlantic, but the agitation of a plan for the immediate resumption of specie payments is cause of alarm to many timid people.

The following is a statement of the stocks of leading articles of domestic and foreign merchandise, at dates given :

	1876. Feb. 1.	1877. Feb. 1.	1877. Jan. 1.

into dulness. Tallow has favored buyers at \$\frac{1}{2}\mathbb{Q}^2\trict{1}_c\$, for prime to choice.

Rio coffee has ruled firm at \$19\frac{1}{2}\mathbb{Q}^2\trict{1}_c\$, gold, for fair to prime cargoes, and the sales have fully equalled the receipts; stocks are consequently kept low. Rice and molasses are without new features. Foreign dried fruits are generally firm and fairly active. Sugars have been active and advancing. Yesterday, the sales embraced five cargoes of Manila, to arrive, at \$\frac{1}{2}\mathbb{Q}^3\frac{1}{2}c\$. The stock in this market is exceptionally small, and it is stated that in the four principal markets on the Atlantic seaboard, it is not more than one-fourth as large as last February.

The market has been quiet for Kentucky leaf, and the sales for the week are limited to 400 hhds., of which half are for export, and the remainder for home consumption. Prices are barely steady. Lugs quoted at \$\frac{1}{2}\mathred{Q}^2\trac{1}{2}c\$, and leaf, \$\frac{1}{2}\mathred{1}\trac{1}{2}\trac{1}{2}c\$, and leaf, \$\frac{1}{2}\mathred{1}\trac{1}{2}c\$, but prices, especially the better grades, give no indications of weakness. Sales have been 250 cases undries at \$\frac{1}{2}\mathred{Q}^2\trac{1}{2}c\$, and leaf, \$\frac{1}{2}\mathred{1}\trac{1}{2}c\$, go cases Ohio, crop of 1874-75, on private terms; 480 cases New England, crop of 1875, 18\mathred{Q}^2\trac{1}{2}c\$, and addict terms. Spanish tobacco is dull, and the sales for the week are only 500 bales Havans, at 75c \mathrea{8}\frac{1}{2}\trac{1}{2}c\$, and private terms.

Havana, at 75c @\$1 10.

There has been a moderate business in ocean freights—that is, Havana, at 75c @\$1 10.

There has been a moderate business in ocean freights—that is, in berth room; rates have sgain materially declined, and this was the stimulus; charters, however, are dull and nominal. Late engagements and charters: Grain to Liverpool, by steam, 4\frac{1}{2}d.; cotton, \frac{1}{2}d.; provisions, 30@40s. per ton; grain, by sail, 5d. from store; flour, 2s., and cotton, 9 32d.; grain to London, hy steam, 5\frac{1}{2}d.; cheese, 40s.; grain to Bristol, by steam, 6d. per 60 lbs.; bacon to Hull, by steam, 40s.; refined petroleum in cases to Java, 40c., gold; do. in bbls. to Liverpool, 4s. To-day, business was quiet, and rates in some instances were again lower: grain to Liverpool, by steam, 4\frac{1}{2}d.; clover seed, 35s. per ton; bacon, 30s.; provisions to Bristol, by steam, 37s. 6d@40s.; grain to Glas gow, by steam, 4d. per standard bushel; crude petroleum to a French port, 5s.; residuum to Liverpool, 4s.

Naval stores have been exceedingly quiet, and prices are weak and lower; spirits turpentine, 44c; common to good strained rosin, \\$2 10@2 29. Petroleum dull and nominal at 12\frac{1}{2}d. 2\frac{1}{2}c. for crude, in bulk, and 2\frac{1}{2}c. for refined, in bbls. In iron there were sales of 5,000 tons Gray forge, delivered at Hoboken at \\$1s. Ingot copper again firmer, with 400,000 lbs. Lake sold at 20@20\frac{1}{2}c. Whiskey closed at \\$1 08, cash. Clover seed is held firmer at 16@17c. for Western and State.

COTTON.

FRIDAY, P. M., Feb. 2, 1877. FRIDAY, P. M., Feb. 2, 1877.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (Feb. 2), the total receipts have reached 138,374 bales, against 109,447 bales last week, 115,015 bales the previous week, and 101,132 bales three weeks since, making the total receipts since the 1st of September, 1876, 3,144,189 bales, against 3,066,184 bales for the same period of 1875-6, showing an increase since Sept. 1, 1876, of 78,005 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

Receipts this week at-	1877.	1876.	1875.	1874.	1873.	18.2.
New Orleans	60,944	60,832	85,795	62,057	46,689	38,116
Mobile	14,473	11,753	11,107	11,841	10,728	9,726
Charleston	9,818 157	6,533 2,613	9,899 1,024	12,006	11,296	9,422
Savannah	12,005	12,706	17,196	15,853	19,560	12,827
Galveston	12,260	11,220	10,889	15,495	14,529	4,179
Indianola, &c	309 11,612	360 12,621	400 6,262	2,012	7,416	7,400
Tennessee, &c	9;7	636	143	496	323	888
North Carolina	4,166	1,601	3,314	1,619	1,843	1,146
Norfolk	11,055	9,966	11,850	15,612	13,477	8,131
City Point, &c	598	488	2:3	933	657	859
Total this week	138,374	131.379	108,152	147,669	126,521	92,688
Total since Sept. 1 3	.144.189	3,066,184	2,635,772	2,693,491	2,379,826	1,916,479

The exports for the week ending this evening reach a total of 126,383 bales, of which 92,822 were to Great Britain, 16,886 to France, and 16,675 to rest of the Continent, while the stocks as made up this evening are now 892,181 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

Wash and	Ex	ported t	o	Total	Same	Stock.	
Week ending Feb. 2.	Great Britain.	France	Conti- nent.	this week.		1877.	1876.
New Orleans*	31,493	12,219	1,902	45,614	43,821	287,035	386,246
Mobile	6,452		5,175	11,627	8,383	71,695	92,07#
Charleston	7,883		1,316	9,179	5,360	52,897	58,259
Savannah	16,871		3,300	20,171	17,119	63,855	85,661
Galvestont	15,103	4.631	3,376	23,110	7,699	91,222	75,823
New York	7,517	33		7,533	10,168	264,280	152,243
Norfolk	3,639			3,639	5,558	20,167	26,729
Other ports;	3,984		1,606	5,490	1,451	36,000	45,000
Total this week	92,812	16,885	16,675	126,383	93,562	892,191	921,569
Total since Sent 1	1 943 947	203 018	997 019	1 889 307	1.751.956		

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 26,821 bales, while the stocks to-night are 29,388 bales less than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to Jan. 26, the latest mail dates:

		CIPTS	EXPOR	TED SIN	Coast-	L + mil

Under the head of Charleston is included Port Royal, &c.; under the head of Galosston is included Indianois, &c.; under the head of Norfolk is included Carp Point, &c.

Foint, &c.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market this week has ruled quite dull for cotton on the spot, and prices, compared with last Friday, are decided y lower, Quotations were reduced 3-16c on Monday, and again 3-16c on Thursday, to 12 15-16c for middling Uplands. A decline in gold, and a greater decline in currency rates of exchange, were adverse to the operations of shippers, and the spinning demand was very trifling, while the downward course of the market repressed speculation. To-day, there was a further decline of 1-16c, and a

quiet market. For future delivery, the market has been excited, and subject to frequent fluctuations. Thus, on Tuesday, prices were at one time \(\frac{1}{2} \) below the closing bids, and on Wednesday, precisely the reverse was the case. Thus a variation to the extent of \(\frac{1}{2} \) cis recorded only in the report of sales made. The recovery towards the close of Tuesday's business was caused by a steadier closing at Liverpool and smaller receipts at the interior towns. But under the large receipts at Memphis and Augusta, on Wednesday, the early advance was soon lost, and shortly before noon on Thursday, under a continuation of adverse influences, there was a semi-panic, under which prices for the spring months gave way rapidly. To day, the market opened lower, but was firmer towards the close, owing to reports showing that the increased receipts at the ports were due largely to the liberal shipments from interior towns, where stocks were considerably reduced.

reduced.

The total sales for forward delivery for the week are 213,200 bales, including —— free on board. For immediate delivery the total sales foot up this week 5,965 bales, including 930 for export, 4,630 for consumption, 406 for speculation, and —— in transit. Of the above, —— bales were to arrive. The following tables show the official quotations and sales for each day of the past week:

The above totals show that the old interior stocks have decreased during the week 11,199 bales, and are to-night 34,512 bales less than at the same period last year. The receipts at the same towns have been 1,014 bales less than the same week last

COTTON CONSUMPTION AND SUPPLY.—Our readers will be interested in an article on this subject, which will be found in our editorial columns to day.

WEATHER REPORTS BY TELEGRAPH.—The weather has been decidedly more favorable for farm work the past week, very little rain having fallen, and the temperature being much warmer. Preparations for the next crop are now progressing satisfactorily, especially in the more Southern sections.

Galveston, Texas. - There has been no rainfall this week. The thermometer has averaged 56, the highest being 64, and the lowest 49. Plowing and crop preparations have started every. where. The rainfall for the month is five and thirty-eight hundredths inches.

Indianola, Texas.-There has not been any rainfall this week, but it has been damp and foggy. Average thermometer 61, highest 72, and lowest 50. Notwithstanding caterpillars, there will be increased cotton planting this year. Plowing is progressing. The rainfall for the month is one inch and twentynine hundredths.

Corsicana, Texas.-It has rained on one day this week, the rainfall reaching sixty-six hundredths of an inch. Average thermometer 57, highest 72, and lowest 43. Farmers are preparing for the next crop. The rainfall for the month of January is two inches and sixteen hundredths.

Dallas, Texas.-The earlier part of the week the weather has been clear and pleasant, but during the latter part there has been hard rain on two days, with indications of more. The tempera-ture has moderated. Though it is now too wet to begin work, there are hopes of an early start. Average thermometer 63, highest 73, and lowest 34. The rainfall is one inch and eightyfive hundredths. The rainfall for the month is thirty-three hundredths of an inch.

New Orleans, Louisiana .- No rain all the week. Average ther mometer 50. Total rainfall for the month, eight and two hun-

Shreveport, Louisiana .- The early part of the week was clear. but the latter part has been cloudy and threatening, and it is now rainy. The thermometer has averaged 54, the highest being 72

rany. The thermometer has averaged 34, the highest being 73 and the lowest 37. The rainfall is five hundredths of an inch. Vicksburg, Mississippi.—It has rained slightly on two days this week, the rainfall reaching one hundredth of an inch. The thermometer has averaged 53, the highest being 73 and the lowest 35. Columbus, Mississippi.—The weather has been pleasant and dry all the week, and planters are at work bedding the soil for the next cross.

next crop.

Little Rock, Arkansas.—We have had a week of spring weather, and to-day it is warm. The thermometer has averaged 58, ranging from 82 to 31.

Naskville, Tennessee.—It has rained on one day this week, the rainfall reaching one hundredth of an inch. The thermometer has averaged 48, the extremes being 26 and 66.

Memphis, Tennessee.—We have not had any rain this week until to-day. The thermometer has averaged 52 the highest

Memphis, Tennessee.—We have not had any rain this week until to day. The thermometer has averaged 52, the highest being 75 and the lowest 33.

Mobile, Alabama.—No rain here all the week. Average thermometer 53, highest 71 and lowest 38. The rainfall for the month has aggregated six and thirty hundredths inches.

Montgomery, Alabama.—The weather during the week has been fine. There has been no rain, but it has been warm and dry every day. The thermometer has averaged 53, the highest being 68 and the lowest 37. The rainfall for the month is six and sixty-seven hundredths inches.

Selma, Alabama.—We have had no rain here this week, but it is now cloudy. Last week we had rain on three days, the earlier part of the week, but the latter part was clear and pleasant. The roads in all directions were very bad, retarding receipts.

Maction, Horida.—Telegram not received.

Macon, Georgia.—There has been no rainfall this week. The thermometer has ranged from 36 to 76, averaging 61.

Atlanta, Georgia.—The weather has been warm and dry all the week. Average thermometer 50, highest 62 and lowest 22. The rainfall during the month has reached four and fifty hundredths inches.

Chiembus Georgia.—The thermometer has averaged 54 during

Columbus, Georgia.—The thermometer has averaged 54 during the week. The rainfall for the month of January is six and sixty-five hundredths inches.

Savannah, Georgia.—The weather during the week has been easant. There has been no rain. Average thermometer 54,

pleasant. There has been no rain. Average thermometer 54, highest 70 and lowest 39.

Augusta, Georgia.—The weather has been warm and dry all the week. Thermometer—highest, 68; lowest, 33; average, 50. The rainfall for the month was four inches and seventy-five hundredths.

undredths. Charleston, South Carolina.—There has been no rainfall here is week. The thermometer has ranged from 41 to 68, averagthis week. ing 53.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 3 o'clock Feb. 1. We give last year's figures (Feb. 3, 1876,) for compar-

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

IMPORTS, STOCK AND CONSUMPTION OF COTTON IN EUROPE.-We take the following figures from the annual circular of Messrs. Stolterfoht, Sons & Co., Liverpool, showing the import, stock and consumption of cotton in Europe for the years ending December 31, 1875 and 1876, expressed in 1,000s of bales. See CHRONICLE, Feb. 12, 1876, page 162, for previous report.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 7,000 bales shipped from Bombay to Great Britain the past week, and 1,000 bales to the Continent; while the receipts at Bombay during this week have been 15,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday Feb. 1. down to Thursday, Feb. 1:

	-Shipme	ents this	week-	-Shipme	ntssince	-Receipts		
	Great Britain.	Con-	Total.	Great Britain.	Con-	Total.	This week.	Jan. 1.
1877		1,000	8,900	33,000	15,000	48,000	15,000	92,000
1876		12,000	48,000	22,000 75,000	21,000 43,000	43,000 118,000	18,000 36,000	78,000 158,000

From the foregoing it would appear that, compared with last year, there is an *increase* of 8,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows an *increase* in shipments of 5,000 bales, compared with the corresponding period of 1876.

GUNNY BAGS, BAGGING, &c .- Bagging became more active following our last report, and there have been considerable lots taken, chiefly on speculation, and prices have stiffened. The sales foot up about 9,000 bales for the past month, and at the close holders are firm as to price, and quote 121c. Butts have continued firm in tone, and a good demand is to be noted, chiefly for parcels to arrive, which are held at 31c., with sales of 1,000 bales here at this figure, and 5,000 bales in Boston at 31c. gold. The market still tends upward, in sympathy with prices abroad, and higher figures are expected. The stock here and in Boston is only about 1,400 bales, with a supply afloat of 122,406 bales. The consump. tion for same period last year was 127,692 bales, showing a deficit in the supply of nearly 4,000 bales.

LIVERPOOL, Feb. 2-3:30 P. M.—By Cable From LiverPOOL.—Estimated sales of the day were 8,000 bales, of which
1,000 bales were for export and speculation. Of to-day's sales,
5,600 bales were American. The weekly movement is given

		-		
	Jan. 12.	Jan. 19.	Jan. 26.	Feb. 2.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per latest mail returns, have reached 100,527 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

Carayan, ship, from New York, at Liverpool Jan. 10, had been in collision Dec. 13, no lat., &c., with a three-masted schooner, and had waterways carried away, and received other slight damage. Damage to schooner, if any, unknown. The C. reports: On Dec. 25, encountered a harricane, during which the vessel was thrown on her beam ends, and remained so for six hours; had some sails blown away. &c.

Darda, ship, (1,315 tons, of Bath, Me., Day, from New Orleans Dec. 17 for Liverpool with 425 bales cotton, was struck by lightning Jan. 7 about 460 miles N. W. of the Azorea, and totally destroyed. The captain, his wife and two children and the craw took to the boats and were picked up and landed at Fayal prior to the 17th.

Harver Mills, ship, which caught fire in Port Royal harbor, en'ered into a stipulation, Jan. 23, in the sum of \$25,001, signed by the captain, W. F. Mills, Capt. Henry Card, Frank H. Parker and F. J. Pelzer, and was, according to the terms of same, released from custody and turned over to Capt. W. F. Mills, The ship was subsequently libelled by Capt. Peter Toglio, of the steamer Pilot Boy, and Michael McGorty, owner; by the master and owners of the steamer Huntaville; by the master and owners of the steamer Huntaville; by the master and owners of the steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master and owners of the Steamer Huntaville; by the master a

E. A. BAIZLEY, schr., from Mobile for Havre, which put into Charleston Dec. 20 in distress, repaired and resumed her voyage Jan. 20.

BREADSTUFFS.

FRIDAY, P. M., Feb. 2, 1877.

The flour market has ruled exceedingly dull, and there is more or less decline in prices to quote for the past week. Receipts were rather more liberal, and, coming upon previous accumulations, caused receivers to be anxious to realize upon a portion of 27, inclusive, for four years:

their stocks. The decline in wheat enabled city millers to accept orders at reduced prices. Foreign accounts were dull, and political advices from the Continent promised a continuance of peace. To add to these unfavorable influences, rates of exchange declined, and the premium on gold fell off sharply. Under all these circumstances prices of flour declined 20 to 30 cents per bbl. for the low grades, but the better were rather more steadily maintained. The production of flour at the West has been somewhat curtailed of late, owing to the fact that wheat is relatively higher than flour. To-day, the market was quiet, but without further decline.

The wheat market has been even more dull, depressed, and unsettled than flour. Speculation has subsided at the West, and some holders were much more inclined to realize. But others remained firm, believing that the crop is "shorter" than most people suspect; and point to the fact that receipts at the Western markets thus far in January are considerably less than half as large as in last January to sustain their position. Statistics also show, that notwithstanding the dulness of exports, and the slow movement generally, there is some reduction in the visible supply. English accounts have continued very dull. To-day, there was a better demand for speculation and export, with sales of several boat loads No. 2 spring at \$1 41@\$1 43, in store.

Indian corn has been moderately active, and prices have varied but little. Speculation has been rather less confident, but supplies have been less liberal at all points, and low rates of ocean freights have encouraged the export movement. To day, the market was more liberally supplied and prices were lower.

Rye has sold in a small way at full prices. Barley has been dull, and the late improvement in prices barely maintained. Canada peas are nominal.

Oats have been declining under a dull trade, but became rather more steady towards the close, with No. 3 graded quoted at 41c for mixed and 43c for white.

The following are the closing quotations:

THE DRY GOODS TRADE.

FRIDAY, P. M., Feb. 2, 1817.

The market the past week has been fairly active for the time of year. There was a steady movement in cotton goods, values of which were firmly maintained, and prints were taken in such liberal amounts that agents' stocks were in most cases closed out, which gave prices an upward turn. In woolen goods the demand was less active, as most of the larger clothiers have completed their purchases of light weights, and have not yet commenced operations for the fall trade. The feature of the week's business was an auction sale of 15,000 pieces of black alpacas, which was made by order of the Treasurer and Directors of the Arlington Mills, in order to introduce the goods thoroughly to the trade. The sale attracted buyers from all parts of the interior, and the competition was very spirited, which enabled the auctioneers to close out the entire line of goods in a short space of time, at within five per cent of agents' net list prices, which was considered a great success. The amount of the above sale was considerably over \$200,000.

DOMESTIC COTTON GOODS .- The exports of domestics and prints to foreign markets during the week ending January 30 were 1,303 packages, and the more important shipments were as follows: Great Britain, 582 packages; Brazil, 315; Danish West Indies, 77; Cuba, 75; Mexico, 66; British West Indies, 47; Japan, 34; Venezuela, 29, &c., &c. There was a steady demand by the home trade for brown and bleached cottons, and prices ruled firm, with an upward tendency. Denims continued active, in light supply and firm. Dyed ducks were steady and tickings, stripes, cottonades, and cheviots were in fair request. Corset jeans were active, and Kearsarge satteens were advanced to 10 cents. Rolled jacconets and glazed cambrics were in better demand, and several makes were advanced tc. Warps twines, and yarns continued to move freely, and are firmly held. Print cloths were active and higher at 51c, thirty days, for extra 64x64s, spots and futures, and $4\frac{1}{2}$ c., cash to ten days, for 56x60s. Prints were very active, and some makes were advanced to 8c., in view of the short supply and the continued high cost of print Pandieton do 23% Fontenoy do 23% XXX do 12%

cloths. Ginghams ruled quiet, except dress styles, which were in good demand. Cotton dress goods were sold in moderate lots to a fair aggregate amount.

DOMESTIC WOOLEN GOODS.—The class of men's-wear woolens usually bought by the clothing trade exhibited less general activity than when last reported upon, but fine qualities of cassimeres, suitings, and worsted coatings were fairly active. There were a few orders placed for heavy woolens for fall, and most manufacturers have discontinued the production of light weights for the season. Meltons and tricots were in moderate demandbut cloths and doeskins remained quiet. Worsted coatings of the best makes met with fair sales, but low qualities and cotton warp goods were not so quick. Tweeds and repellents were in limited request, and satinets were a shade more active. Kentucky jeans were in better demand, and, in some cases, a slight advance was established by agents. Flannels remained quiet, except all-wool white flannels, and white dometts, for which there was a moderate inquiry. Worsted dress goods were in fair request by interior jobbers, but the local trade bought. lightly.

Foreign Dry Goods.—There was more demand for house-keeping linen goods, dress linens and handkerchiefs, and plain and fancy white goods were distributed in moderate lots to a considerable amount. Hamburg embroideries found ready buyers at satisfactory prices. Dress goods moved slowly, but staple makes, like cashmeres, etc., are firmly held. In silks there was no movement of importance, and ribbons were in light demand. Men's-wear woolens were dull, except spring overcoatings, for which there was a fair demand. Kid gloves were in steady request, and cotton half-hose were rather more active.

We annex prices of domestic ginghams:

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports since Jan. 1, 1877, of leading articles from the port of New York to all the principal foreign countries, the totals for the last week, and also the totals since Jan. 1, 1877 and 1876. The last two lines show total values, including the value of all other articles besides those mentioned in the table.

Mortgage Security Co.

OFFERS FOR SALE, AT 105 AND INTEREST,

SEVEN PER CENT TEN-YEAR BONDS

SECURED BY

FIRST MORTGAGES OF IMPROVED REAL ESTATE.

GUARANTEED, PRINCIPAL AND INTEREST,

CAPITAL STOCK OF \$500,000.

Interest Coupons payable semi-annually. Bonds registered so order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase. A Pamphiet with full information will be sent on application at the Company's Office.

43 Milk Street, Boston.

These Bonds are commended to the attention of the Most Conservative Investors, as they are believed to be as perfect security as can be obtained of the same class of bonds ever issued under a like Guarantee.

of the same class of bonds ever issued under a like Guarantee.

The security of each bond is not confined to a single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its mortgages are of like character to those which have been bought in the last twenty years companies and other corporations, to the immore Companies and other corporations, to the immore companies and other corporations, to the last secure and satisfactory investment. The loans are set upon improved farms in some of the most fertile Western States, near the railroads, with short and perfect titles, and average less than \$200 each, upon property appraised at about three times their amount. Experience has proved that well-selected mortgages upon this class of property are safer than those upon city property, either in the saster state. They are not affected by free, or by promptly paid; and upon the success of agriculture depends that of almost every industrial investment.
